## EDUCATION

### Computer Science and Artificial intelligence

Cairo University

09/2019 - Present

#### Courses

- Object-Oriented Programming
- Algorithm
- Software Modeling
- Java EE 7.0
- Data Structures
- Software Engineering
- Software Architecture
- Software Testing

### High School

Al Mostakbal Language School

08/2018 - 07/2019

## PERSONAL PROJECTS

### Trip scheduling System

- Cairo University Project using Angular for Frontend - Spring Boot for Backend - MySQL for database.
- Containerization project using Docker into 3 containers: Frontend container - Backend container - Database container.
- Deploying containers into OpenShift as containerized service.

### Flutter Tasks

- Samples for flutter tasks are provided in my GitHub profile in "Fcai-Flutter-Tasks" Repo

### Non-trivial software system

- Practice on the concepts that i have learned during the software architecture course

### Markets Website

- Cairo University Project for web engineering using HTML - CSS - PHP

### Go To Bus

- Cairo University Project that provide several web services in the Backend

## SKILLS

Java

Git

C++

Dart

Flutter

Self-Learning

Team Worker

Hard Worker

Design Patterns

Testing Foundations

Algorithm

ICDL

## CERTIFICATES

Red Hat OpenShift I: Containers & Kubernetes (DO180)

Red Hat Application Development I: Programming in Java EE (AD183)

ISTQB Software Testing foundation Level

*Certificate of profession from ISTQB*

Flutter Certificate

*Flutter Certificate from Cairo University Workshop*

## LANGUAGES

Arabic

*Native or Bilingual Proficiency*

English

*Professional Working Proficiency*

## INTERESTS

Programming

Soccer
